FSE: 1RR

VANCOUVER, March 1, 2018 /CNW/ - Rokmaster Resources Corp. ("**Rokmaster**" or the "**Company**") announces its intention to proceed with a consolidation of its issued and outstanding common shares on the basis of one (1) post-consolidation common share for every ten (10) pre-consolidated common shares (the "**Consolidation**") and contemplates a change of Company name.

Currently, a total of 104,873,306 common shares of the Company are issued and outstanding and after the Consolidation, the Company will have approximately 10,487,331 issued and outstanding common shares. The Consolidation and Company name change require shareholder approval by way of a special resolution and the Company has scheduled a meeting of its shareholders on April 9, 2018.

The Board of Directors of Rokmaster believe the Consolidation is in the best interest of its shareholders and is seeking its approval to provide the Company with greater flexibility to arrange the financings it requires for an inaugural drill program at its Duncan Lake Zinc Project (the "**Project**") located in the Kootenay Arc, strategic acquisitions and for future growth opportunities.

Rokmaster is underpinned by a renowned technical and highly skilled team with extensive experience in exploration, development and mining all over the world. More importantly, they have a well-established history in the Kootenays - and a deep and intimate knowledge of the Project gained during their years exploring in the area.

Rokmaster will obtain a new CUSIP number for the Company's shares, to distinguish between pre-and post-Consolidation shares. The Company anticipates its trading symbol will remain unchanged.

The Consolidation is also subject to receipt of TSX Venture Exchange approval.
